

# Unlocking Career Potential: Navigating Growth and Opportunities in South Australia's Electrical Engineering Sector

Overview

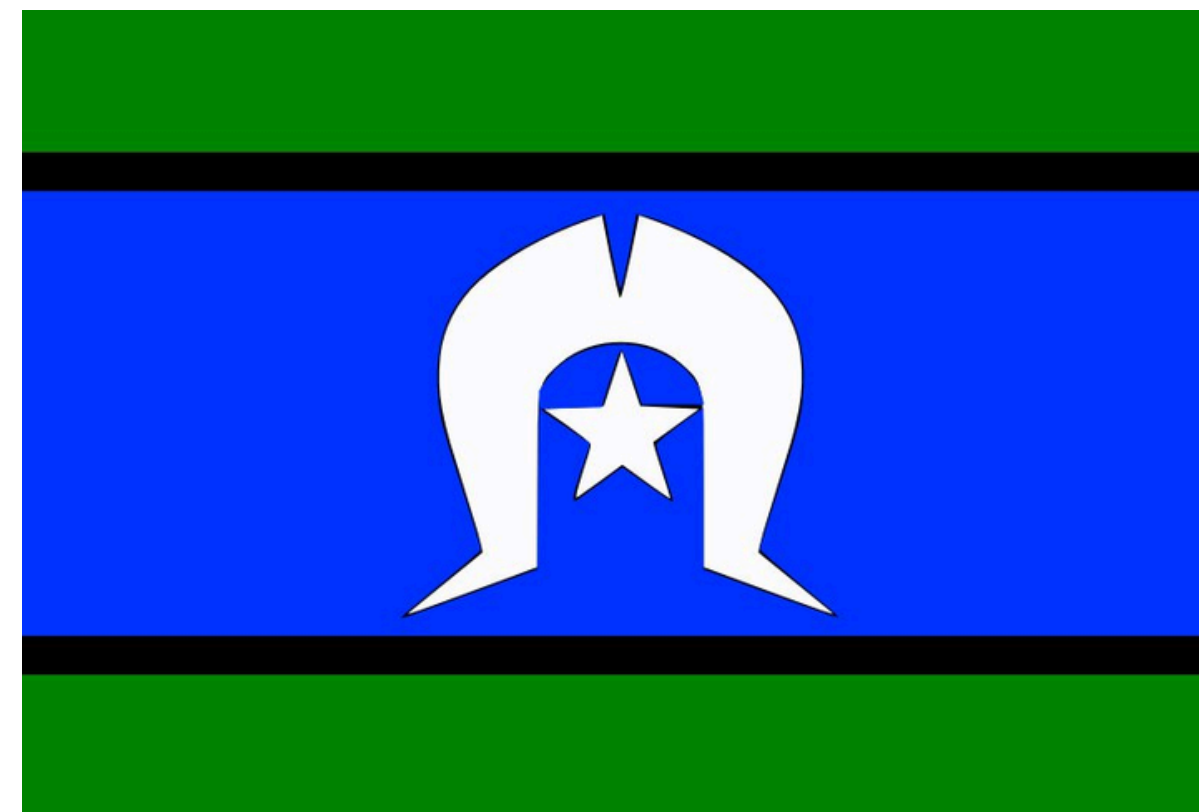

# Acknowledgement of Country

I would like to begin by recognising and acknowledging the original custodians of the lands on which we meet today, and their continued connection to lands, waters and communities.

I pay my respects to the Aboriginal and Torres Strait Islanders' cultures, to their Elders, past, present and emerging.

I would also like to extend that respect to all First Nations people present here today.

## Lovely to see you here!

**#Electrical Engineers** - Are you ready to get some career direction and achieve your vision for your life?

As a talent shaper, adult educationalist, project entrepreneur and funding specialist, I am passionate about helping you reach your potential.

Over the last 25 years, I have worked with hundreds of people and been privileged to be part of helping them transform their self-perspectives and what they can achieve.

Welcome to our series on career opportunities on Eyre Peninsula and in the Far North region of South Australia - I hope you find information here to start your career success journey.

Meet Allison

## Let's make great things happen!

**#Electrical Engineers** - Are you ready to be guided on the career opportunities which await you in on the Eyre Peninsula and in the Far North region of South Australia?

As an educator of nearly 30 years, e-learning leader and innovator, and as a disruptive change manager, I have been assisting people reach their potential through formal education and on-going professional development, such as this program.

The de-carbonisation of our planet and the Government's Net Zero agenda offers exciting career opportunities for you, and your career can start right here in regional South Australia
