Experience a curated journey through the state's engineering ecosystem

including site visits, industry briefings, and
cultural experiences.

Meet local professionals and learn what it
takes to thrive as an engineer in Australia.

Please note: This is an educational and professional development
experience. Visa, migration, and job placement services are not included

Highlights include:

This is more than a study tour

—it's your gateway to understanding how engineers live, work, and thrive as an engineer in South Australia.

- Industry briefings on South Australia's key engineering sectors — renewable energy, infrastructure, mining and advanced manufacturing.
- Behind-the-scenes site visits to major engineering projects across Adelaide.
- Professional networking sessions with employers, industry leaders, and recruitment professionals to better understand South Australia's engineering landscape.
- Workshops on navigating SA's engineering job market and strengthening your professional portfolio.
- Cultural and lifestyle experiences that showcase why Adelaide is one of the world's most liveable cities.

“ Before this tour, I was not very sure about the number of job opportunities in SA.

Especially the relevant jobs for my Engineering discipline in Mechatronics. I believe now that there are plenty of opportunities in and the natural environment is just stunning. All because of this valuable tour. If in future an opportunity comes to work in SA, I will be very happy to relocate.

Be better informed before you make the move

Allison Miller 

Digital Learning Leader & Education Innovator

Allison is a leader in e-learning, innovation, and professional growth. She helps people unlock their potential through future-focused learning, and champions the opportunities created by decarbonisation and the renewable energy future in South Australia.

Dr Janene Piip 

Workforce Development Specialist, Engineering Futures

Janene is a workforce development specialist with 20+ years of connecting skilled professionals with industry, helping global engineers and grads build sustainable careers in South Australia's advanced and regional sectors.

Sondra Stewart 

South Australia Destination Management Co

A proud South Australian, Sondra brings deep tourism expertise to the Adelaide Discovery Tour through her South Australian Destination Management Co. She curates authentic experiences that showcase the state's best — combining professionalism, safety and fun.
